Toothfish Fact Sheet

TOTAL ALLOWABLE CATCHES

All Toothfish Fisheries Globally

Toothfish are caught in the southern oceans, both inside and outside the area managed by the Commission for the Conservation of Antarctic Marine Resources (CCAMLR).

Total Allowable Catches (TACs) for toothfish fisheries inside the Convention Area are set by CCAMLR according to a comprehensive stock assessment process developed by scientists from CCAMLR member nations.

TACs for toothfish fisheries outside the CCAMLR Convention Area are set by the coastal State or RFMO with jurisdiction over those waters.

FISHERY - INSIDE CCAMLR Area	TAC (t)	% caught by COLTO Members
CCAMLR 48.2 - High Seas Exploratory Fishing	98	23
CCAMLR 48.3 - South Georgia EEZ	2,170	100
CCAMLR 48.4 - South Sandwich Islands Research Fishing	18	100
CCAMLR 48.6 - High Seas Exploratory Fishing	510	100
CCAMLR 58.4.1 - High Seas Exploratory Fishing	573	100
CCAMLR 58.4.2 - High Seas Exploratory Fishing	32	100
CCAMLR 58.4.3a - High Seas Exploratory Fishing	32	100
CCAMLR 58.4.4 - High Seas Research Fishing	60	100
CCAMLR 58.5.1 - Kerguelen Islands (France EEZ)	5,050	100
CCAMLR 58.5.2 - Heard & McDonald Islands (Australia EEZ)	3,525	100
CCAMLR 58.6 - Crozet Islands (France EEZ)	1,100	100
CCAMLR 58.7 - P. Edward & Marion Islands (South Africa EEZ)	575	100
CCAMLR 88.1 & 88.2 - High Seas (Ross Sea) Exploratory Fishing	3,776	71
CCAMLR 88.3 - High Seas Research Fishing	245	100
FISHERY - OUTSIDE CCAMLR Area		
Argentina EEZ	3,700	100
Australia EEZ - Macquarie Island	450	100
Chile EEZ - industrial	1,656	80
Chile EEZ - artisanal	1,491	0
Falkland Islands EEZ	1,040	100
Peru EEZ	155	0
Other High Seas areas (with & without TAC)	3,425	40
